

Preschool Workshops

- Appropriate for children ages 3-5
- 30-45 minutes in length
- Accommodate up to 16 children
- Cost \$100 for first / \$90 for second

Digging for Dinosaurs

Dinosaurs are always a huge hit with children, especially preschoolers. They will be introduced to the differences between meat-eating and plant-eating animals and will have the opportunity to look at some dinosaur teeth up close. They will also work as paleontologists by participating in a mini dinosaur dig that will engage their attention as well as their scientific skills.

Color Lab

Welcome to the exciting world of color! Preschoolers will learn about the colors of the rainbow. Roll up your sleeves and get into color mixing with liquids, gels, and paints. Color your world beautiful with a sun catcher that captures the light.

Human Body

No bones about it, the human body is amazing! Feel the movement of your muscles and find out how they work with your bones to help you run. Listen to the beat of your heart and uncover why it's the most important muscle in your body.

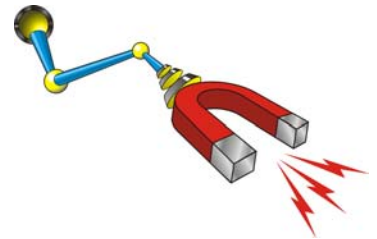

Butterflies

Preschoolers discover all about butterflies –where they come from, stages of their growth, and how they eat. They will even make some of their own to take home during this workshop.

Magnetic Attraction

Experience the poles and power of magnets in this hands on workshop that even provides children with the opportunity to make their own magnet to take home.
